

# Ceiling Mount - PGS250A

## INSTALLATION INSTRUCTIONS\*

\*Anchors not provided. Supplied mounting screws are #6.

**1**

Mark and drill the holes for the intended location. Install appropriate anchors for the application.

**2**

Use an M4 or 1/8" allen wrench to install the combination Screw (A).

**3**

Fasten the barrels (B) to the extended combination screw (A) by rotating clockwise until the barrel is flush with the ceiling. Ensure the set screws (C) face out.

**4**

Use a 2mm allen wrench to open the set screw (C).

**5**

Raise the sign into place and using a 2mm allen wrench tighten the set screw (C) until closed.

**6**

Make certain that your sign is level.

 Wood	 Concrete	 Drywall	 Drywall	 Suspended Ceiling
		<b>CAUTION</b> 10lb Pullout Strength
