

# Howard Industries Interior Signage

- » ADA Compliant
- » Patient Focused
- » Paper Insert
- » Photoluminescent
- » Donor Recognition
- » And More

Our interior signage is comprised of Acrylic and HID systems, making it easy to find a solution that fits your facilities' needs. We offer a multitude of sign configurations, all of which can be made ADA compliant, to create a look that falls in line with your business' brand. These systems are commonly used for room identification, wayfinding, building directories and regulatory signage; however, the applications are endless.

Our 100% USA made interior signage is designed, manufactured and assembled within our interior signage department. We are able to fulfill your signage order within two weeks of the date the order is placed.
